INDEX TO Vol. II (B).

AUTHORS' INDEX.

Afonso, Emidio ..	*See* Mello and Afonso.
Ayyangar, G. N. Rangaswami, and Nambiar, K. Kunhi Krishnan	Studies in *Dolichos lablab* (Roxb.) and (L.)—The Indian field and garden bean—II, 74.
Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, and Nambiar, A. Kunhikoran	The inheritance of some characters in crosses with the sorghums, Milo and Kafir, 508.
Bhagvat, Kamala, and Sreenivasaya, M.	A dilatometric method for studying the "In Vitro" digestibility of milks, 316.
Bhâradwâja, Yajnavalkya	The myxophyceæ of the United Provinces, India—I, 95.
Bhargava, H. R.	The life-history of *Trianthema monogyna* Linn., 49.
Chaudhuri, H., and Kochhar, P. L.	Indian water-moulds—I, 137.
Correia, Alberto Carlos Germano da Silva	The Marathas of Portuguese India, 467.
Damodaran, M., and Srinivasan, M.	Ascorbic acid (vitamin C) content of some Indian plant materials, 377.
Datta, N. C.	Investigations on metallic contamination of foods—Part II. Effect of cooking and storage of foodstuffs in aluminium vessels, 322.
Dayal, J.	Studies on the trematode parasites of Indian fishes—I. A new trematode, *Monorchotrema taakree* n. sp. from a fresh water fish, *Pseudeutropius taakree*, from Lucknow, 403.
George, C. J.	*See* Presswalla and George.
Iyer, C. R. Harihara, Rajagopalan, R., and Subrahmanyan, V.	Investigations on the rôle of organic matter in plant nutrition—Part X. Influence of different forms of manganese on the oxidation of organic matter and release of plant nutrients, 108.
Iyer, P. V. Seetharama ..	*See* Raghavachari and Iyer.
Johri, B. M.	Studies in the family alismaceæ—III. *Sagittaria guayanensis* H.B.K. and *S. latifolia* Willd, 33.
Joshi, A. C.	Secondary thickening in the stem and root of *Stellera chamæjasmæ* Linn., 424.
Joshi, A. C., and Venkateswarlu, J.	Embryological studies in the lythraceæ—I. *Lawsonia inermis* Linn., 481. Embryological studies in the lythraceæ—II. *Lagerstræmia* Linn., 523.
Kajale, L. B.	The female gametophyte of *Alternanthera sessilis* R. Br., 476.

Kausik, S. B. .. .. The life-history of *Lobelia trigona* Roxb., with special reference to the nutrition of the embryo-sac, 410.

Kheswalla, K. F. .. .. *See* Mitra and Kheswalla.

Kochhar, P. L. .. .. *See* Chaudhuri and Kochhar.

Kulkarni, R. B. .. .. A second species of *Procamallanus* Baylis 1923 from India, 29.

Kumar, K. .. .. *See* Singh and Kumar.

Lal, Makund Behari .. *See* Thapar and Lal.
On the morphology of a new species of monostome of the genus *Notocotylus* Diesing, 1839, 419.
A review of the genus, *Notocotylus*, with description of a new trematode parasite of *Mareca penelope* from Lucknow, 457.

Mello, I. Froilano de .. New hæmoproteids of some Indian birds, 469.
New trypanosomids of some Indian birds, 500.

Mello, I. Froilano de, and Afonso, Emidio — Blood parasites of *Coracias b. benghalensis* with special remarks on its two types of *Leucocytozoon*, 67.

Mirza, M. B., and Narayan, S. S. — *Strongyloides akbari* N. Sp.—A new nematode parasite from *Crocidura coerulea*, with a note on some species of the genus strongyloides, 503.

Mitra, M., and Kheswalla, K. F. — The effect of temperature on the growth of *Fusarium vasinfectum* Atk., 495.

Murthy, S. K. Narasimha — The life-history of *Ottelia alismoides* Pers, 59.

Nambiar, A. Kunhikoran .. *See* Ayyangar and others.

Nambiar, K. Kunhi Krishnan .. .. *See* Ayyangar and Nambiar.

Narayan, S. S. .. .. *See* Mirza and Narayan.

Narayanayya, Y. V., and Subrahmanyan, V. — Estimation of nitrogen by fumeless digestion—Part I, 213.

Parthasarathy, N. .. *See* Ramanujam and Parthasarathy.

Patwardhan, S. S. .. Three new species of trematodes from birds, 21.
On the structure and mechanism of the gastric mill in decapoda—VI. The structure of the gastric mill in natantous macrura—Penæidea and stenopidea; conclusion, 155.

Pichamuthu, Charles S. .. The conglomerates and grits of Kaldurga, Kadur District, Mysore, 254.

Presswalla, M. J., and George, C. J. — The respiratory system and the mode of respiration of the water-bug, *Sphærodema rusticum* Fabr., with remarks on those of *Nepa*, *Laccotrephes* and *Ranatra*, 280.

Purkayastha, S. .. .. *See* Sharma and Purkayastha.

Raghavachari, T. N. S., and Iyer, P. V. Seetharama — The use of activated carbon in the purification of water in the tropics. (The Madras City water-supply), 237.

Rajagopalan, R. .. *See* Iyer and others.

Ramanujam, S. .. .. *See* Ramiah and Ramanujam.

Ramanujam, S., and Parthasarathy, N.	An asynaptic mutant in rice (*Oryza sativa*), 80.
Ramaswami, L. S. ..	Contribution to our knowledge of the cranial morphology of some ranid genera of frogs—Part II, 1.
Ramiah, K., and Ramanujam, S.	Chlorophyll deficiencies in rice (*Oryza sativa*), 343.
Rao, C. Bhashyakarla ..	A new species of *Stichosiphon* (*Stichosiphon indica* Sp. Nov.), 535.
Rao, H. S.	The structure and life-history of *Azolla pinnata* R. Brown, with remarks on the fossil history of the hydropterideæ, 175.
Rao, V. Panduranga ..	*See* Ayyangar and others.
Sharma, N. L., and Purkayastha, S.	The heavy minerals of the "Erinpura" granite and microgranite of Danta State (N. Gujrat), 369.
Singh, B. N.	The correlation between life duration and respiratory phenomena, 387.
Singh, B. N., and Kumar, K.	An analysis of the influence of season on photosynthesis in the tropics, 437.
Sreenivasan, A.	Investigations on the rôle of silicon in plant nutrition —Part II. Adsorption of silica in soluble forms by colloidal oxides of iron and aluminium, 201.
Sreenivasaya, M.	*See* Bhagvat and Sreenivasaya.
Sreerangachar, H. B. ..	Dilatometric studies in the enzymic hydrolysis of polysaccharides—III. Hydrolysis of starch, amylose and amylopectin by takadiastase, 333.
Sreenivasan, M. ..	*See* Damodaran and Srinivasan.
Subrahmanyan, V. ..	*See* Iyer and others. *See* Narayanayya and Subrahmanyan.
Thapar, Gobind Singh, and Lal, Makund Behari	On the morphology of a new genus of trematode parasite of the kingfisher from Lucknow, 88.
Venkateswarlu, J. ..	*See* Joshi and Venkateswarlu.

TITLE INDEX. (B).

Alismaceæ, family, studies, III (Johri), 33.
Ascorbic acid (vitamin C) content of some Indian plant materials (Damodaran and Srinivasan), 377.
Azolla pinnata R. Brown, structure and life-history, with remarks on the fossil history of the hydropterideæ (Rao), 175.
Carbon, activated, use, in the purification of water in the tropics (The Madras City water-supply) (Raghavachari and Iyer), 237.
Chlorophyll deficiencies in rice (*Oryza sativa*) (Ramiah and Ramanujam), 343.
Conglomerates of Kaldurga, Kadur District, Mysore (Pichamuthu), 254.
Dolichos lablab (Roxb.) and (L.), studies, II (Ayyangar and Nambiar), 74.
Embryological studies in the lythraceæ, I, II (Joshi and Venkateswarlu), 481, 523.
Enzymic hydrolysis of polysaccharides, dilatometric studies, III (Sreerangachar), 333.
Fusarium vasinfectum Atk., the effect of temperature on the growth (Mitra and Kheswalla), 495.
Gametophyte, female, of *Alternanthera sessilis* R. Br. (Kajale), 476.
Gastric mill in decapoda, structure and mechanism (Patwardhan), 155.
Grits of Kaldurga, Kadur District, Mysore (Pichamuthu), 254.
Hæmoproteids, new, of some Indian birds (Mello), 469.
Life duration and respiratory phenomena, correlation (Singh), 387.
Lobelia trigona Roxb., life-history, with special reference to the nutrition of the embryo-sac (Kausik), 410.
Lythraceæ, embryological studies, I, II (Joshi and Venkateswarlu), 481, 523.
Marathas of Portuguese India (Correia), 467.
Metallic contamination of foods, investigations, II (Datta), 322.
Milks, "In vitro" digestibility, dilatometric method (Bhagvat and Sreenivasaya), 316.
Minerals, heavy, of the "Erinpura" granite and microgranite of Danta State (N. Gujrat) (Sharma and Purkayastha), 369.
Morphology, cranial, some ranid genera of frogs, contributions to our knowledge, II (Ramaswami), 1.
Morphology of a new genus of trematode parasite of the kingfisher from Lucknow (Thapar and Lal), 88.
Morphology of a new species of monostome of the genus *notocotylus* Diesing, 1839 (Lal), 419.
Mutant, asynaptic, in rice (*Oryza sativa*) (Ramanujam and Parthasarathy), 80.
Myxophyceæ of the United Provinces, India, I (Bharadwaja), 95.
Nitrogen, estimation, by fumeless digestion, I (Narayanayya and Subrahmanyan), 213.
Notocotylus, a review of the genus, with description of a new trematode parasite of *Mareca penelope* from Lucknow (Lal), 457.
Ottelia alismoides Pers, life-history (Murthy), 59.
Parasite, blood, *Coracias b. benghalensis*, with special remarks on its two types of *Leucocytozoon* (Mello and Afonso), 67.
Photosynthesis in the tropics, analysis of the influence of season (Singh and Kumar), 437.

Plant nutrition, investigations on the rôle of organic matter, X (Iyer and others), 108.
Plant nutrition, investigations on the rôle of silicon, II (Sreenivasan), 201.
Procamallanus Baylis 1923 from India, a second species (Kulkarni), 29.
Respiratory phenomena and life duration, correlation (Singh), 387.
Sorghums, Milo and Kafir, inheritance of some characters in crosses (Ayyangar and others), 508.
Sphærodema rusticum Fabr., the water-bug respiratory system and the mode of respiration, with remarks on those of *Nepa*, *Laccotrephes* and *Ranatra* (Presswalla and George), 280.
Stellera chamæjasmæ, Linn., stem and root, secondary thickening (Joshi), 424.
Stichosiphon (*Stichosiphon indica* Sp. Nov.), a new species (Rao), 535.
Strongyloides akbari N. Sp.—A new nematode parasite from *Crocidura coerulea*, with a note on some species of the genus strongyloides (Mirza and Narayan), 503.
Trematode parasites of Indian fishes, studies, I (Dayal), 403.
Trematodes from birds, three new species (Patwardhan), 21.
Trianthema monogyna Linn., life-history (Bhargava), 49.
Trypanosomids, new, of some Indian birds (Mello), 500.
Water-moulds, Indian, I (Chaudhuri and Kochhar), 137.
